

AlphaGraphe

cartes à imprimer et découper

MICHÈLE ET ALEX-ANDRÉE

Une progression d'enseignement
du principe alphabétique
qui favorise l'apprentissage
de la lecture et de l'écriture

cartes à imprimer recto-verso

pour répertorier et travailler
le nom et le son
que font les lettres
(lecture de graphèmes simples)
ainsi que le son que font les graphèmes
complexes et contextuels courants

À imprimer recto verso :

- pp. 3 à 12 : cartes de l'alphabet majuscule et minuscule
- pp. 13 à 32 : cartes de l'alphabet mnémonique imagé avec trottoirs au verso
- pp. 33 à 42 : cartes de l'alphabet majuscule (avec flèches directionnelles) et guides ciel/eau/sable ou ciel/herbe/terre au verso
- pp. 43 à 52 : cartes de l'alphabet minuscule (avec flèches directionnelles) et guides ciel/eau/sable ou ciel/herbe/terre au verso
- pp. 53 à 62 : cartes de l'alphabet majuscule (avec flèches directionnelles) et trottoirs
- pp. 63 à 72 : cartes de l'alphabet minuscule (avec flèches directionnelles) et trottoirs
- pp. 73 à 80 : cartes de terminaisons - masculin (recto) - féminin (verso)

ne pas imprimer recto-verso

- pp. 81 à 84 : cartes de graphèmes consonantiques courants, mais plus complexes ou contextuels (p. ex. m devant m, p et b)

Pour préparer le matériel :

Plastifiez-les cartes.

Faites un trou dans le coin supérieur gauche à l'aide d'une perforuse à 1 trou.

Utilisez un anneau pour les unir et présentez chaque lettre/graphème individuellement à l'apprenante.

Les cartes de l'alphabet sont à imprimer recto-verso pour pouvoir présenter la lettre majuscule ou minuscule, pour occuper moins d'espace dans votre trousse et pour réduire notre empreinte écologique. Vous apercevrez des symboles dans les coins supérieurs des pages, ce qui indique lesquelles des cartes doivent être imprimées les unes à l'endos des autres.
